Welcome.

YAY!!! YOU DID IT!!

You took a huge step forward in creating the business you have always wanted! I am super excited to have you here.

To get the most out of your experience with Blaze, I have a few things I want you to do and to keep in mind:

1. Join our Facebook Community Group where I will be doing the live Q&A each week with you because you won't want to miss those! These LIVE sessions will be a huge part of diving deeper into the curriculum and I will be providing more info and go deeper into each topic! You won't want to miss these!

Join the group here:

2. TAKE NOTES!!! It's so important that you use the worksheets provided or that you simply take notes to really retain the information that's most useful to you! Try not to just have a video playing in the background of your computer.

Really decide right here and right now that since you made this investment, that you are going to make it worthwhile!

3. Keep in mind, there are times when you might feel overwhelmed with things you need to start doing or implement in your business. It's my hope that as you take this course, you will find a few specific things that you will get really excited about and move forward with. And when you start to feel overwhelmed, take a break from the videos, ask questions in our community group, and just remember that growing your business does NOT happen overnight!

4. If you have not already done so when you were checking out, you will need to register and create an account to access the course content.
